PROFILE

B.Tech IT graduate and aspiring Software Developer with a strong foundation in software engineering, application development, and problem-solving. Experienced in building full-stack applications and applying software development practices through academic and project-based work. Combines structured problem-solving, backend logic, and user-focused thinking to develop reliable solutions for real-world requirements, with a disciplined approach to learning and continuous technical improvement.

EDUCATION

Bachelor of Technology in Information Technology PSNA College of Engineering and Technology	2022 – 2026 CGPA: 8.04
Higher Secondary Certificate (HSC) GOVT. HR. SEC. SCHOOL, S.S. KOTTAI	2021 – 2022 82.67%
Secondary School Leaving Certificate (SSLC) GOVT. HR. SEC. SCHOOL, S.S. KOTTAI	2019 – 2020 71.4%

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, SQL, HTML, CSS
Software Development: Object-Oriented Programming (OOP), Data Structures, SDLC, REST APIs, CRUD Operations, Problem Solving
Frontend & Backend: React.js, Node.js, MERN Stack
Databases: MongoDB, SQL, Database Fundamentals
DevOps & Cloud: Git, GitHub, GitHub Actions, CI/CD, Docker, Linux, ShellScripting (Basic), Cloud Fundamentals (Basic)
Software Engineering: System Design, Software Development Life Cycle (SDLC), Version Control, Agile Development Fundamentals
Security: JWT Authentication, AES-256, SHA-256, Cryptography Fundamentals
Development & Design Tools: Figma, n8n, Postman

INTERNSHIP

Winways Technology Pvt. Ltd. – Madurai <i>Data Analyst Intern</i>	Jun 2025 – Jul 2025
- Engineered automated data cleaning and preprocessing pipelines to organize complex client datasets for scalable analysis. - Developed interactive dashboards and comprehensive client reports, supporting data-driven business insights alongside senior analysts.	

PROJECTS

Machine Learning-Enabled Non-Invasive Blood Group Identification System	<i>CNN, MERN</i>
- Developed a CNN-based machine learning model using TensorFlow to predict 8 blood groups from 6,000+ fingerprint images, applying image preprocessing and data augmentation to achieve 98% accuracy. - Built a full-stack web application using React.js, Node.js/Express.js, and Flask API for real-time blood group prediction, implementing JWT authentication and AES-256/SHA-256 security to protect biometric data.	
Sparkly Data – Data Analytics Platform	<i>MERN, Chart.js, D3.js, Power BI</i>
- Built an end-to-end data analytics platform supporting dataset uploads, preprocessing, and advanced statistical analysis. - Integrated dynamic frontend visualizations using Chart.js and D3.js, with Power BI and Tableau for data visualization and analytics support.	

Certifications & Workshops

- Software & Data:** Learn Java (CodeChef), Learn SQL (CodeChef), MongoDB Certification, Power BI Beginners (Simplilearn), Career Essentials in Data Analysis (Microsoft & LinkedIn)
- Cybersecurity:** Introduction to Cyber Security (Infosys Springboard), Introduction to Cryptography for Beginners (Simplilearn)
- Frontend & Design:** Principle of UX/UI (Coursera), HTML/CSS/JS (Udemy)
- Workshops:** Meta Gen AI Workshop(Sep 2024), Open Day IISC Bangalore(feb 2024)
